

VA Women's Health Care Benefits: How to Order and Bill for an Intrauterine Device (IUD) and Procedure Using Specialty Pharmacy Network in CCN Regions 4 and 5

Quick Reference Guide

Key Points:

- IUDs for women Veterans may be ordered and billed separately through VA's network specialty pharmacies.
- Providers who choose to procure through a pharmacy must order the device through the specialty pharmacy which is billed through Express Scripts.
- Provider then completes the procedure and bills TriWest separately for implantation.

Intrauterine Devices Available for Veterans

The Department of Veterans Affairs (VA) has recently added Intrauterine Devices (IUD) to the Community Care Network (CCN) Urgent/Emergent Formulary in Regions 4 and 5 for Veterans. To perform this service, providers may directly purchase IUDs and bill them to TriWest or providers can order IUDs through network specialty pharmacies. The content of this guide relates to using specialty pharmacies to procure IUDs for Veterans seeking care in CCN Regions 4 and 5.

Once the IUD is ordered and received, the provider can then perform the implantation procedure and bill TriWest for the service.

The IUDs available through CCN Regions 4 and 5 include the following brands: Mirena, Liletta, Nexplanon, ParaGard, Skyla and Kyleena.

Follow this Process to Order IUDs Through Regions 4 and 5 Network Specialty Pharmacies:

- Identify Regions 4 and 5 network specialty pharmacies that provide desired/needed IUDs.
